LMS WEB SOLUTIONS

Services and pricing

Simple websites and ongoing care for small businesses. Choose a one-time service or add an optional monthly plan.

One-page website — $300 one-time

Mobile-friendly page with your business introduction, services, supplied photos and contact details. Includes one revision round and domain/hosting setup.

Small website updates — $50 per hour

Text, photo, business-hour or contact-information changes. One-hour minimum. We review the site and agree on the scope before starting.

Domain and hosting setup — $75 one-time

Help setting up client-owned accounts, connecting the domain, enabling HTTPS and publishing the site. Included with a new website build.

Content care plan — $45 per month

Up to 30 minutes of content edits, monthly link/contact checks and a brief completion update.

Managed website plan — $65 per month

Everything in Content Care, plus hosting administration, website-related DNS management, renewal-setting checks and a recoverable website copy.

How service works

Separate provider charges: You own and pay for your domain and hosting accounts. Our fees cover setup and management; provider charges are additional.

Monthly plans: Choose one plan. Plans are optional, billed in advance and month-to-month. Cancel before the next billing date. Unused edit time does not roll over.

Project terms: Website builds require 50% upfront and 50% before launch. Website ownership transfers after full payment. Additional work is $50/hour with approval.

Timing and scope: Routine edits target three business days after we receive all materials. New-build timing is agreed in your proposal. Existing sites require review.

Not included: Online stores, customer logins, business email support, custom applications, advanced SEO or emergency/24-hour support.

Ready to get started? Complete the Client Request Form and return it to the person who sent you this guide. We will confirm scope, pricing and timing in a written proposal before work begins.
